3AVS11-0069	Audiovisual Arts	LOT 1 TV content	Individual	Audiovisual Arts	The cycle of science-cognitive television programs "UKRAINE. STATE HISTORY. Part I." "Kievan Rus "	The television program is based on facts taken from historical sources, which testify to a fundamental distortion of the history of the Russian Empire, aimed at creating a historical mythology that Muscovy and Kievan Rus have common historical roots, that Muscovy has "inheritance rights" on Kievan Rus. The ordinary fraud of the Muscovites, who had taken possession of the past of the Grand Duchy of Kiev and its people, dealt a terrible blow to the Ukrainian ethnic group. Our task is to expose the falsehood and immorality of Moscow mythology on the basis of true facts. Without a great past, it is impossible to create a great nation. 3AVS11-0564	Audiovisual Arts	LOT 1 TV content	Individual	Audiovisual Arts	Scenario of full-length documentary film "Guerrillas and underground fighters of Donbas"	length documentary film about contemporary guerrillas and underground fighters of Ukrainian Donbas. The military aggression of the Russian Federation from 2014 gave birth to a powerful civilian and armed resistance of Ukrainian Donbas residents. Starting in April 2014, Donetsk and Luhansk region responded with a powerful voluntary and guerrilla movement to the Kremlin's attempt to build a Novorossiia project in Ukraine. The residents of Donetsk and Luhansk regions became the first participants, organizers of the volunteer movement, moreover, the phenomenon of the modern guerrilla movement against Russian occupation of Ukraine was born among them. The most famous among them were guerrilla troops: "Shadows", which operated mostly in the South of Donetsk region in 2014-2016; a guerrilla troop led by Volodymyr Zhemchuhov in the city of Krasny Luch, operating mostly in the Luhansk region. The activity of the Tesla guerrilla troop operating in the Donetsk region was less well-known. Even less well-known are the individual stories of many underground and guerrillas - residents of the Ukrainian Donbas. Due to lack of information of these stories, modern guerrilla Ukrainian movement is perceived as a myth rather than the truth, although it has many outstanding pages worthy of including into the textbooks on the modern history of Ukraine. The project provides for a documentary research and the creation of a full-length documentary, which will be filmed later. Squeezed in frames of traditional insights the academic artists could not refuse the significant new path. Playing the role "creators of new" and being "loud-hailer of nowadays" were missions for others. They moved inside of imaginative experiments in a parallel way at the same time and direction like in Europe. The pulse of their art thinking was synchronous the pulses of Picasso, Cezanne, Van Gogh. Cubism, Futurism, Cubofuturism and others. They created new reality. New art could not be without poetry, theater, cinema. Like poets, who dived in the deepest senses of "concept of language", they divided space and time on tiny parts, entered double exposition, and matched at the same time several view points within one masterpiece. During its existence, the Cossacks marched on the Ottoman Empire, the Commonwealth, and even France. How did the Zaporozhians influence their neighbors? What traditions have you borrowed and what have you brought? How could a relatively young Zaporozhian army defeat troops whose military order and arms had been honed for centuries? The opinions of historians about Zaporizhzhya differ, and many seemingly obvious facts, when examined in detail, are overgrown with questions.	LLC Charisma Group	2998708	2998708

The project Caution: The Lies aims to:</p> <ul style="list-style-type: none"> • demonstrate the nature of the aggression in the information field, its basic forms and methods applied to influence mass consciousness globally and locally; • highlight the great "battle for the minds" that is taking place right now, paying attention to who is fighting for what; • show the role and place of Ukraine in this battle; • to outline the main strategies for winning in the information war. Information aggression targets the whole society, and that is why fighting it should be a public and social affair and cannot remain, for example, a professional problem for those who work in media. Each short film features the story of one of our heroes. One of the films is about a friend of ours, Denis Khakhalin, who is a member of our project team. He was seriously injured in 2019. Now he has a disability. But we have been with him all that time - just because we need him and he needs us. That is how such situations must be handled: the issue of inclusivity works both ways. In each city of our country, there are many permanent local and temporary cultural events that are usually attended by the same visitors (who are in the topic, or just fans). our mission is to attract the consumption of cultural services to the General population, by the method of all-Ukrainian promotion of cultural objects. Usually in small cities, especially, it is not accepted to visit (often) museums, cinemas, and exhibitions due to lack of time, funds, and sometimes out of ignorance that the Museum has a new exhibition or a new Ukrainian film in the native language was released in the cinema. Our goal is to encourage action and change by visiting cultural places in search of a cultural product, searching for meaning and emotional enrichment through the prism of personal development. Our mission is to create social advertising in the format of a video request with the slogan: "do not miss" cultural events in your city. The essence of the project is " invitation to cultural enrichment" where famous actors, opinion leaders and media stars invite you to the theater, cinema, Museum, gallery and various art events in Ukraine. The main message of the video will be a generalization of images of cultural centers that invite you to visit them – because it is fashionable, necessary, familiar and extremely necessary for the formation of a developed state. 3AVS41-6993	Audiovisual Arts	LOT 4 Video content for alternative media platforms	Individual	Audiovisual Arts	The cycle of scientific and cognitive programs "Cossacks: the heroic past of Ukraine"	The period in the history of Ukraine, well-grounded as "Cossack", testifies to the extraordinary role played by the Cossacks in the absence of the institute of statehood on Ukrainian lands, and the actual enslavement of the local population by the representatives of the "ruling" ethnic groups. Over time, Cossack virtues and ideals influenced the mental characteristics of the Ukrainian ethnic group as a whole. Relying on these and other sources, both academic European scholars and amateur researchers, prominent writers, and prominent political figures were involved in the study of the Cossacks phenomenon. The theme of Ukrainian Cossacks was especially relevant in the 19th - the first half of the 20th century. Although at that time politically Ukrainian lands were part of the empire, but the works of a certain period, devoted to the Cossacks, are recognized by modern science as a kind of classic of domestic research. This approach is absolutely fair, since they were written with full awareness of the uniqueness and independence of Ukrainian history outside the imperial framework.
