The following rule is applied in 2021:

1 applicant — 1 application for each programme.

This means that one legal entity or individual entrepreneur can be an applicant **for all competition programmes in parallel**, but only provided that they submit **only one application package for each of the competition programmes**.

The basic language of all projects supported by the Foundation is Ukrainian. If supporting materials (video, audio, printed materials, etc.) in foreign languages are used in the project, a translation of the content into Ukrainian (text translation, captioning, etc.) must be added.

The application package to be submitted to the competitive selection of the Foundation includes the project application + cost estimate + extract from the USR + mandatory annexes.

The application package must be submitted only in the electronic form through the [official website](#) of the Ukrainian Cultural Foundation. The submitted application package must be signed by the **electronic digital signature of the head of the applicant organisation**. Make sure in advance that you have an electronic signature.

To submit the application package, the applicant must [create a personal online account](#) on the Foundation's website. If such an account has already been created, you can use it (there is a service for password recovery).

After you have created a personal account, it will automatically direct you to the home page of the website to select the appropriate competition programme → selection of the LOT → selection of the project type. After completion of these three steps, you will see the “**Submit application**” button on the right side of the screen — click it to start completing.

The application can be completed gradually — to do this, please use the “**Save**” button. For convenience, the completed application can be “**Printed**” — that is, displayed on a separate screen for reading or sent to a printer.

At the end of the application, there are special fields to upload the cost estimate, mandatory annexes to the project application and mandatory documents. After you have filled in all the fields of the project application, uploaded the cost estimate and annexes in the appropriate field, apply the electronic digital signature of the head of the applicant organisation and click
